

IFSO 2026 WORLD CONGRESS PRE-WORKSHOP COMPLIMENTARY REGISTRATION

For:
Primary Care Providers
SCOPE School: Obesity Medication Management

The 2026 IFSO World Congress is the world's largest international gathering of experts in obesity medicine and metabolic and bariatric surgery.

The workshop will provide practical, evidence-based education on:

- Current clinical practice guidelines for obesity management
- Safe and effective use of obesity management medications (OMMs), including GLP-1-based therapies and other pharmacologic options.
- The appropriate indications and timing for patients to be referred for metabolic bariatric surgery
- How surgery integrates in the continuum with OMMs
- Collaborative, multidisciplinary approaches to managing patients on OMMs
- Long-term obesity management strategies

200 Sponsored Registrations

Sponsored by the Ontario Bariatric Network in partnership with Eli Lilly Canada and Novo Nordisk Canada.

Includes:

One-day SCOPE School Pre-Congress Course
+
Full Congress registration for those who wish to attend
